

# Panel: Break encryption to trace distributor of child porn on Net

NEHA ALAWADHI  
New Delhi, 26 January

A Rajya Sabha panel has recommended that law enforcement agencies should be permitted to break end-to-end encryption to trace the distributor of child pornography on social media.

The ad hoc committee of the Rajya Sabha formed to look into pornography on social media and its effect on children and society has also recommended that apps that help in monitoring children's access to pornographic content be made mandatory on all devices sold in India, and such apps or similar solutions be developed and made freely available to internet service providers (ISPs), schools and parents.

The 14-member committee, chaired by Congress leader Jairam Ramesh, has made 40 recommendations in all, including changes to the Protection of Children From Sexual Offences (POCSO) Act, 2012. The recom-

## THE RECOMMENDATIONS

- The 14-member committee has suggested broadening the definition of child pornography in POCSO Act 2012
- An upgraded- and technologically-empowered NCPCR should be designated as the nodal agency to deal with the issue
- Suggests making amendments to the Information Technology (IT) Act
- The ministries of electronics and IT and home affairs should sign pacts with the industry to develop tech solutions for proactive monitoring of CSAM

mendations assume significance in view of the ongoing battle between the government and WhatsApp over encryption. The government has been looking for a way to trace messages to curb spread of rumours and fake news on the messaging

app. If these recommendations come into effect, it could set a precedent for other similar requests. "The committee recommends modifying the IT (Intermediary Guidelines) Rules 2011 to include the ability to trace the originator or sender of

the message shared on end-to-end encryption platforms in cases where CSAM (Child Sexual Abuse Material) that has been shared has come to the attention of law enforcement agencies," said the report submitted by the panel. The report further adds that internet service providers (ISPs) proactively monitor and take down CSAM.

The committee has suggested broadening the definition of child pornography in POCSO, including a provision on child grooming, or using the Internet to facilitate sexual contact with a child, in the Act.

The report suggested making amendments to the IT Act to include punitive measures for those who provide children access to pornography, and for those who access, produce or transmit CSAM. It said the Act should include a clause to give powers to the "Centre through its authority to block and/or prohibit all websites/intermediaries that carry CSAM".

The report said an upgraded

and technologically empowered National Commission for Protection of Child Rights (NCPCR) should be designated as the nodal agency to deal with the issue of child pornography, and the National Crime Records Bureau (NCRB) should record and report cases of child pornography annually. "A national helpline should be created where child sexual abuse and distribution of child pornographic material can be reported by concerned citizens."

Other technological suggestions include that the ministries of electronics and IT and home affairs sign agreements with the industry to develop solutions for proactive monitoring of CSAM, partner blockchain companies to track cryptocurrency transactions used to purchase child pornography online, besides increasing tie-ups with financial services firms, like credit card providers, to prevent online payments systems from being used for purchasing child pornography.

# How firms are bracing for Coronavirus impact

BLOOMBERG  
January 26

A rapidly spreading viral outbreak is disrupting travel and business in China, which took unprecedented steps to lock down cities with a combined 40 million people around the epicenter in Wuhan to try to slow its progress. For global corporations, Wuhan is an important hub. Of about 2,000 cities in China with factories and other facilities, the city ranks 13th, with about 500 facilities. The province of Hubei has 1,016, making it seventh of 32 such jurisdictions. US-based firms have 44 facilities there, and European ones about 40, the data show. Many plants are in the auto and transportation industries, and big names include PepsiCo and Siemens AG. As the death toll from the pneumonia-like illness rises and cases are found in neighboring Asian countries, including South Korea and Singapore, as well as in the US, the economic impact of the novel coronavirus could be widespread.

Here is a rundown of what big companies are saying so far about the impact.

## January 26:

**HONDA MOTOR:** The automaker evacuated from Wuhan with about 30 Japanese staff, family members and employees visiting on business trips, Teruhiko Tatebe, a Tokyo-based spokesman, said on phone. The carmaker has informed the Japanese government that it wishes to utilise the charter jet planned to evacuate Japanese citizens. A handful of staff needed to maintain local operations will remain in the city.

## January 25

**GRUPE PSA:** The French maker of Peugeot cars and other brands said it will evacuate its expatriate staff and their families from the

Passengers wearing masks at the Changsha Railway Station in Hunan province on Sunday

PHOTO: REUTERS

## NO INDIAN IN CHINA AFFECTED BY VIRUS: MEA

The External Affairs Ministry on Sunday said as of now no Indian in China had been affected by the coronavirus outbreak and the embassy in Beijing is in close touch with all Indians in Wuhan and elsewhere in Hubei province.

The Union health ministry said over 29,700 passengers from 137 flights were screened till Sunday for novel coronavirus infection at seven identified airports in the country but no positive case was detected. **PTI**

**WALT DISNEY:** The world's largest theme park operator said it would close its Disneyland resort in Shanghai effective January 25. It is offering refunds to guests who bought theme park tickets or reserved rooms in its hotels.

**STARBUCKS:** The Seattle-based chain, with about 4,100 cafes in China, also said it's closing some locations, without providing more details.

**DELTA AIR LINES:** The Atlanta-based carrier issued a travel waiver that allows passengers traveling to, from or through Beijing and Shanghai between January 24 and January 31 to change their itinerary once without having to pay a fee.

**January 23:** **AMERICAN AIRLINES GROUP:** President Robert Isom said it was too soon to see an impact. "Our network isn't that extensive in Asia. But we're on top of it," he said. "We've seen viruses in the past that we've had to make accommodations for and to be prepared for, we're doing all those same things."

**January 22** **UNITED AIRLINES HOLDINGS:** It was among the first global corporations to comment on the coronavirus on an earnings conference call.

# Experts see more pain for Bank of Baroda

ABHIJIT LELE & SHREEPAD AUTE  
Mumbai, 26 January

Government-owned Bank of Baroda (BoB) is yet to come out of the woods. Some more pain — it reported a spike in bad loans during the December quarter — is possible, say analysts, given the economic slowdown. Credit costs could stay elevated in the coming financial year.

Says Lalitabh Shrivastava, deputy vice-president at financial services entity Sharekhan: "In the September quarter, the bank's slippages were expected to have peaked out. However, even after removing the divergence-related impact, the quantum of slippage continued to remain elevated in Q3 (October-

December). We expect asset quality pain to continue in the near term, while the growth is likely to be tepid."

The bank's gross non-performing assets were ₹73,140 crore at end-December, from ₹69,969 crore at end-September. The figure at end-December 2018 was ₹74,322 crore.

The extra slippage in Q3 of 2019 was a little over ₹10,000 crore. Of these, ₹4,500 crore was on account of divergence (gap between BoB's assessment of bad loans and those estimated by the Reserve Bank of India for 2018019). This pushed the slippage ratio to 6.78 per cent in Q3, from the earlier 3.95 per cent.

S.B.Jain, executive director in BoL, said at a meeting with analysts that the divergence was

## ASSET QUALITY UNDER LENS

BoB financials over the past 5 qtrs

	Gross NPAs (₹ cr)	Slippage ratio (%)	Credit cost (%)
Q3FY19	74,322	3.65	2.64
Q4FY19	69,924	4.94	8.13
Q1FY20	69,714	3.56	1.81
Q2FY20	69,969	3.95	2.02
Q3FY20	73,140	6.78	3.88

Source: Bank presentation

Factors that will influence bank's asset quality profile

- Economic, business slowdown, and recovery
- Default risks in MUDRA loans
- Recoveries from large stress accounts

due to two factors. One, shortfall in provisioning which happens due to the value of security, which deteriorates with the time for which you have to provide these. Two, asset qualification due to interpretational issues. The bank had, he said, provided in Q3 for all the divergence RBI suggested.

Jain said about ₹2,000 crore was due to a big financial services entity and ₹2,000-3,000 crore was due to the segments of agriculture, retail and small & medium enterprises. More from the loan book of BoB than those of Dena and Vijay Bank. The latter two merged into BoB at the start of this financial year.

Broking house Motilal Oswal says BoB continues to report weak numbers as fresh slippage stays elevated and business growth moderates. The appointment of Sanjiv Chadha as managing director and CEO removes one concern. However, the standing watch-list and SMA-2 assets in a slowing economy remain a concern, it said. Jain said the bank was not unduly worried over the watch-list accounts; it was regularly monitoring these.

Vibha Batra, co-founder at Fairconnect Business Advisors, said one has to be watchful of the burden of provisioning for some accounts. The macro economic environment would also have bearing on the asset quality profile.
